All-in-one design studio for startups and enterprises

zyner

COMPANY DECK

One studio in Colombo.
Clients across 3 continents.

Where your work gets made.

Based in Colombo,  Sri Lanka.
Helping startups and enterprises worldwide.

The Zyner team works together in-house at Hatch, Sri Lanka's startup hub. We are a US company and overlap with US hours, so your design team is online when your day starts - whether you're a five-person startup or a global brand.

20 people. One standard.

Every project is led by a Creative Director, with senior designers and developers dedicated to your team, not juggling ten clients at once.

Most studios hand you designs. We hand you an experience.

Brand, websites, product UI, mobile, motion, and development - we take it from first sketch to live product, not just the pretty parts. From YC startups to enterprise teams, 100+ companies have trusted Zyner with their design.

250+
projects delivered

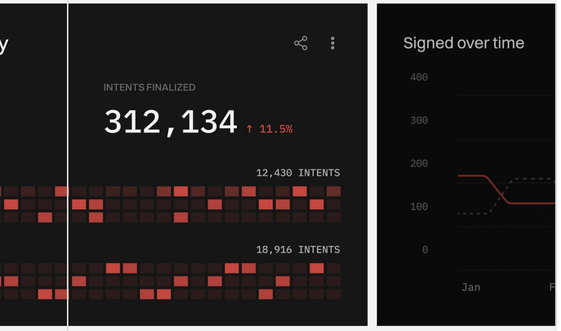

20
senior team

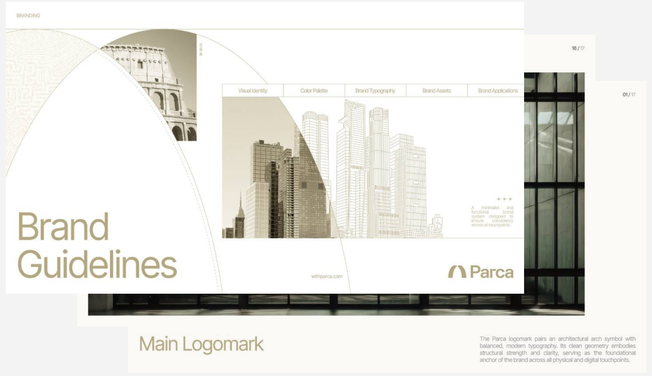

$4.6B+
raised by our clients

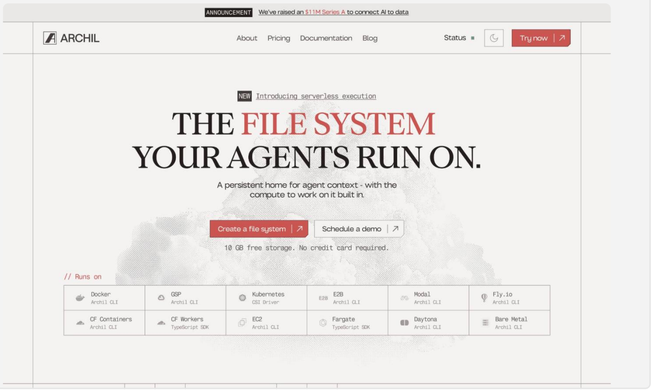

8-16+
years of shipping design

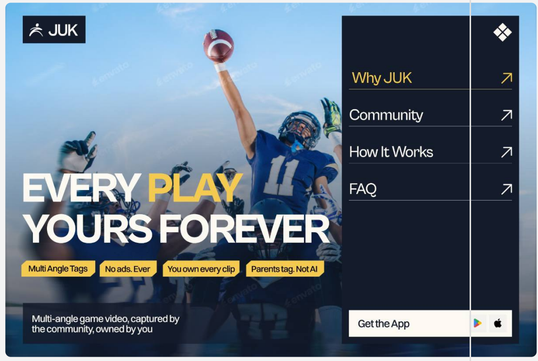

We design, build, and ship.

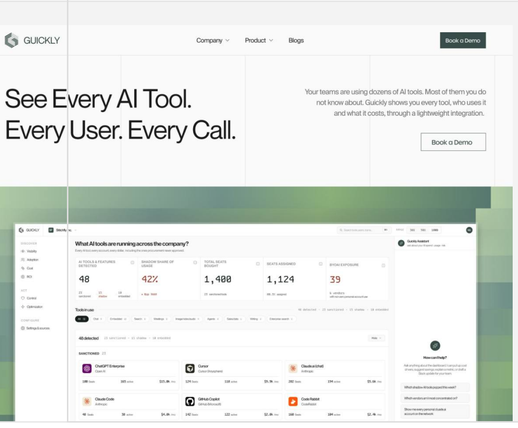

From a startup's first logo to an enterprise product rollout - we design work that helps teams raise, launch, and grow.

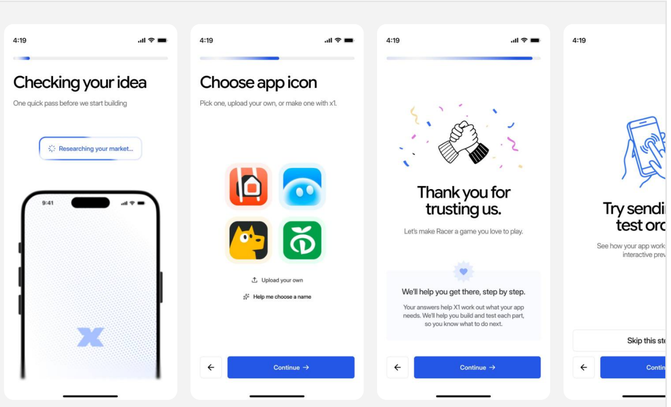

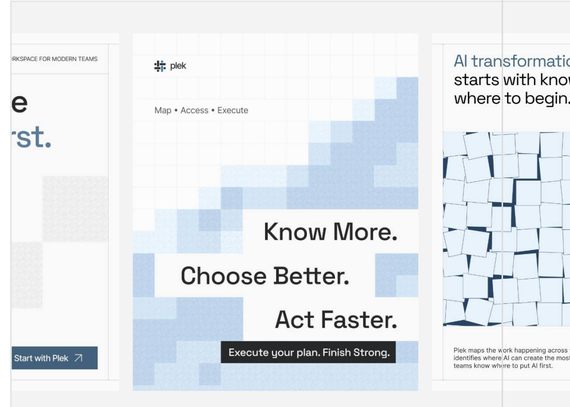

Everything a growing brand needs to look the part.

Our Stack

Brief today. Shipped this week.

AI speeds up the busywork. Senior designers make the calls.

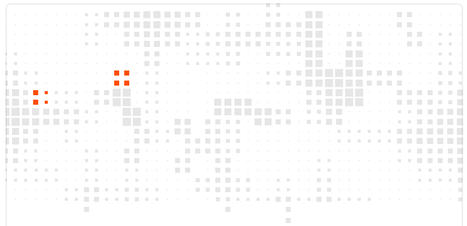

Project manager makes it happen.

Research

We dig into your product, market, and users, so every decision starts from real insight.

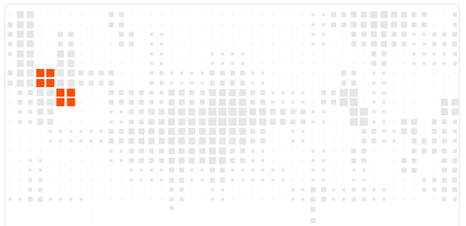

i

Direction

Your Creative Director aligns on brand, goals, look and feel before anything gets designed.

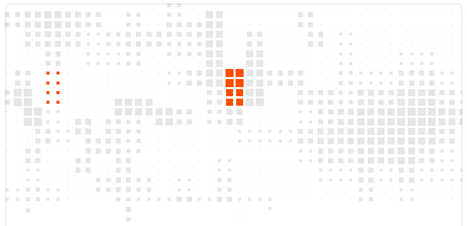

ii

Structure

Pages, flows, and content get mapped early, so feedback happens before design, not after.

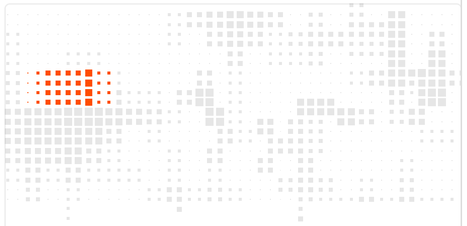

iii

Design

Senior designers bring it to life, on brand and with revisions until it matches the brief.

iv

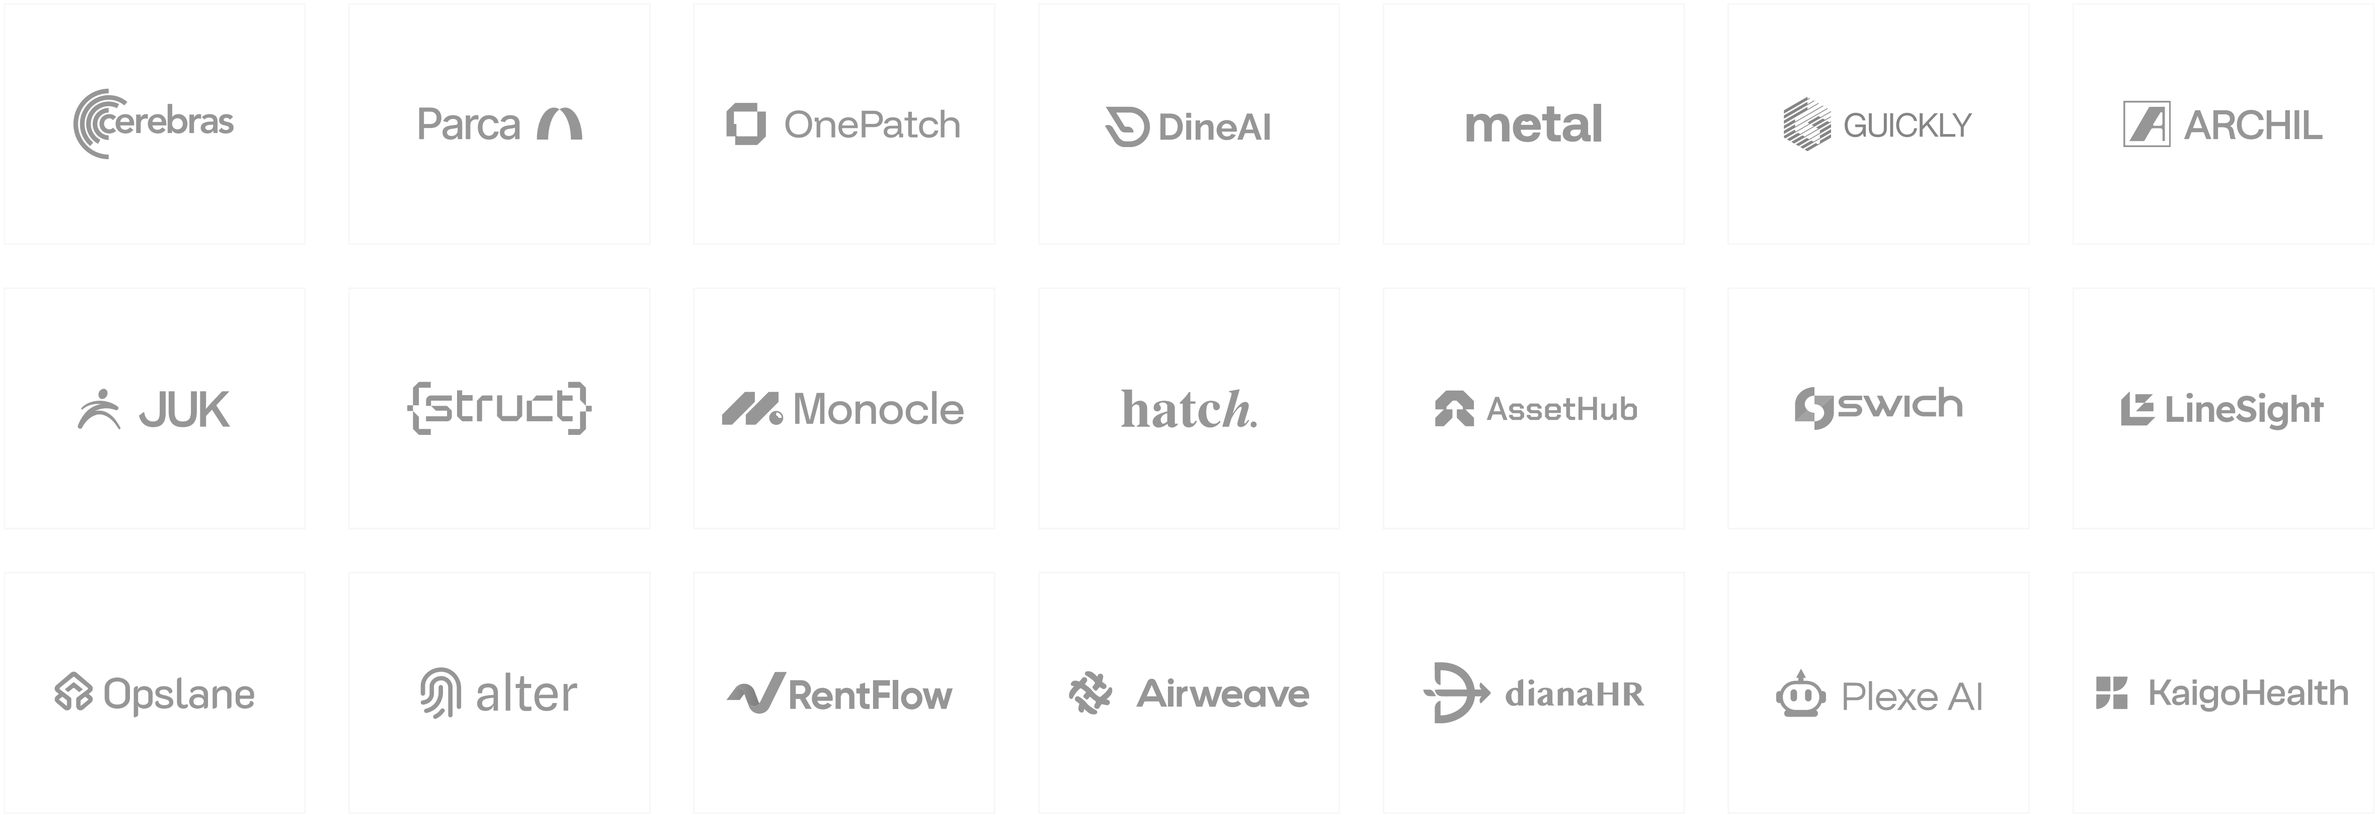

Launch

Developers build it, hand off clean files, and we move straight to your next priority.

v

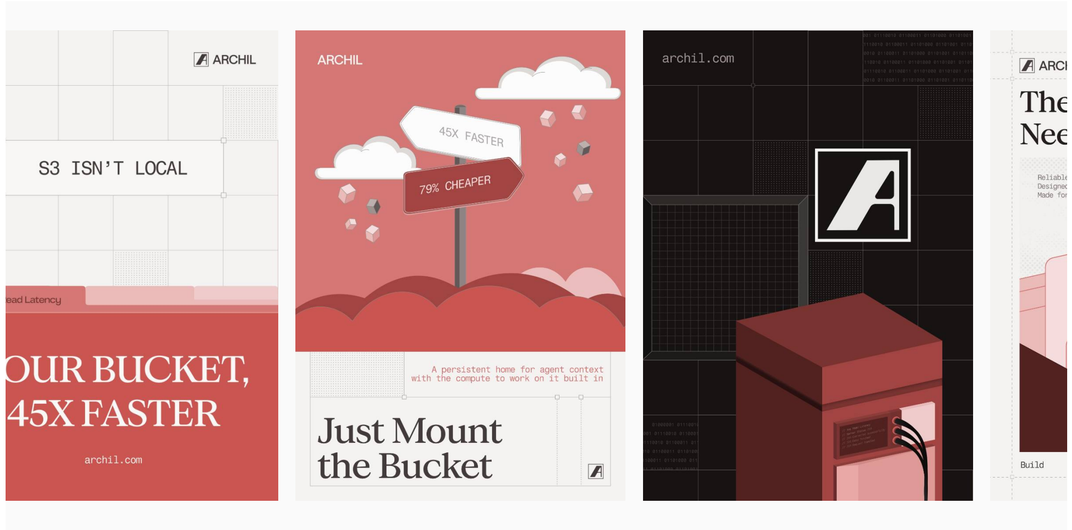

Our clients

From 100+ YC startups to enterprise teams across AI, SaaS, fintech, dev tools, real-estate and more.

Our Work

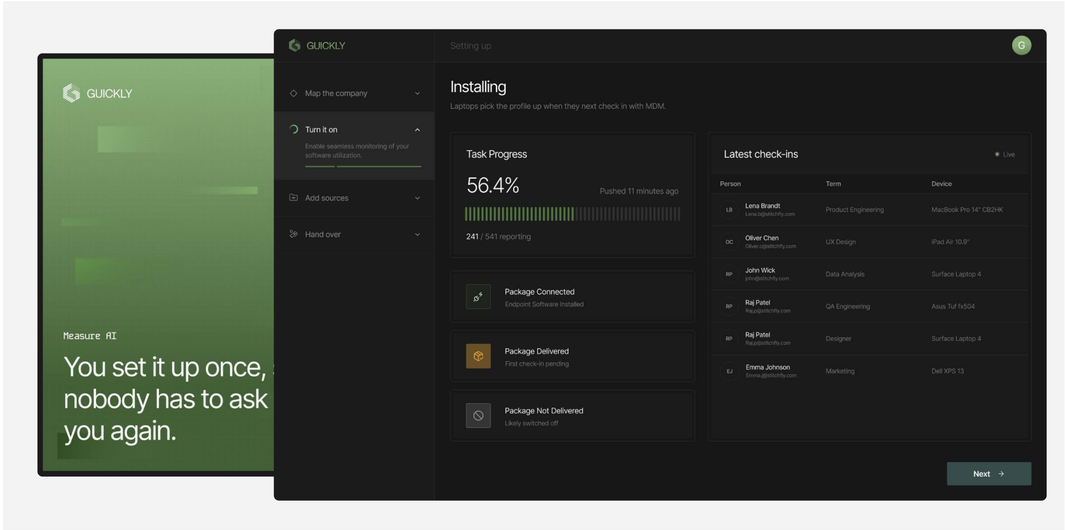

From YC startups to global brands, here's some of the work we've shipped.

ARCHIL

We loved the logo directions, and the team really nailed it. We're really, really happy with the brand guidelines. They got the clean, minimal, retro vibe we were going for, but with a lot more polish. **The website captured exactly what I wanted, and some of the work we sent straight out with no notes.**

Hunter Leath
Founder @Archil

x1.new

Excellent work. **Service has been great. Appreciate the amazing designs.** Thanks so much, Sehan and Team!

Manil Lakabi
CEO @ x1

GUICKLY

All the designs and everything are fantastic! The launch video looked good from the very first version, the social covers and funding announcement graphics looked good, and when we went live, everything on the website looked great. **They even caught things before we did, and the result was much better for it.**

Prashant Jalan
Founder @Guickly

metal

Zyner's team is incredible. They're hands-on, detail-oriented, quick, and they take feedback really well. We thought we'd work with a design agency for a month or two. **Zyner has been so good that we now see it as a long-term partnership.**

Usman Gul
Founder @Metal

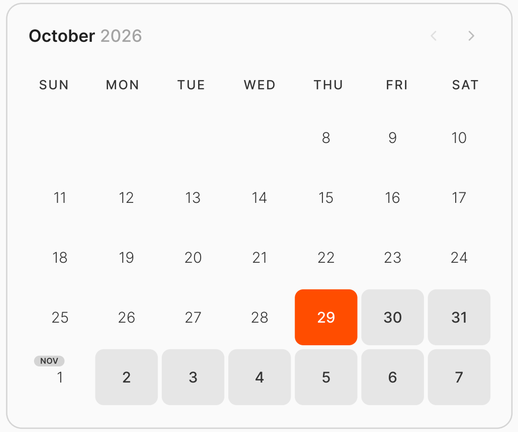

In our clients' words

What happens after this call

Most teams are working with us within 1-2 weeks of the first call.

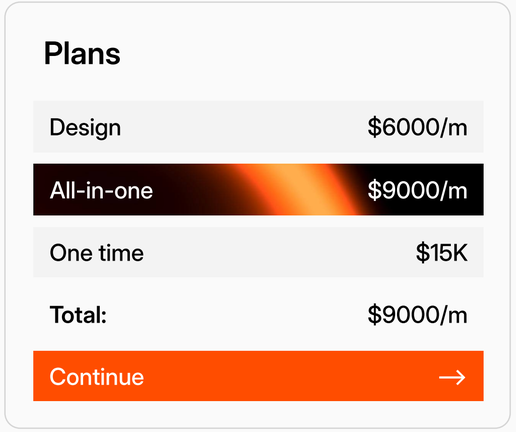

Intro call

30 minutes with Sehan on what you're building, your timeline and budget.

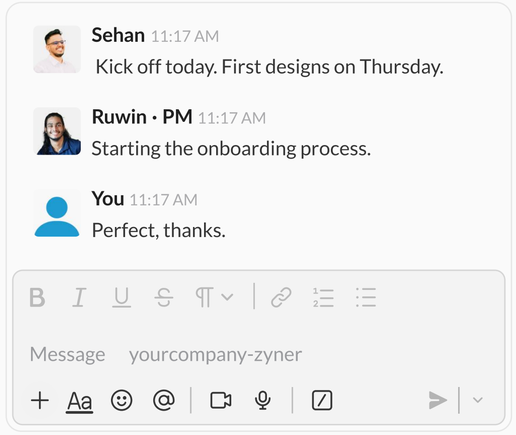

Kickoff

A shared Slack channel, project board, dedicated project manager and onboarding, all on day one.

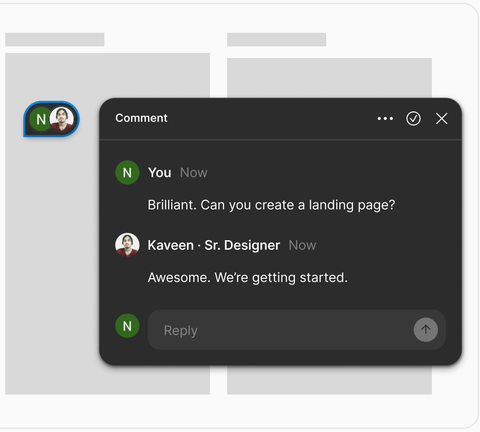

Kickoff

A shared Slack channel, project board, dedicated project manager and onboarding, all on day one.
